

Ultimate Texas Hold'Em

Ultimate Texas Hold'Em is a Poker style game where you don't have to fold until you've seen all of the community cards!

HOW TO PLAY

To play, place a wager in both the Ante and Blind playing areas – these wagers must be of equal value to be valid.

You also have the option of placing a Trips wager. If your final five card hand is a three of a kind or higher, you win!

You will receive two hole cards and have the option of folding, checking or placing a Play wager of 3 or 4 times your Ante wager. The earlier you bet, the higher you can bet.

The dealer will then reveal the three card flop. If you haven't already made a Play bet, you can fold, check or place a Play wager of 2 times your Ante wager.

The dealer will then reveal the final two community cards. If you haven't already made a Play bet, you can either fold or place a Play wager of equal value to your Ante wager.

The dealer will then reveal their hole cards – to qualify to play against you the dealer needs at least a pair.

Payout Odds

Ante Wagers

Your Ante wagers will:

- win when your hand has a higher poker value than the dealers hand; or
- lose when your hand has a lower poker value than the dealers hand; or
- push when your hand has an equal poker value to that of the dealer; or
- push when the dealer hand does not qualify with one pair or higher.

If the dealer hand qualifies with One Pair or higher and you have a higher ranking poker hand than the dealer, the dealer shall pay your Ante wager at the odds of 1 to 1 and Play wager at the odds of 1 to 1.

Blind Wager

Regardless of whether the dealer's hand qualifies, your Blind wager will:

- win when your hand has a poker value of a straight or higher and is a higher poker value than the dealer's hand; or
- lose when your player hand has a lower poker value than the dealers hand; or
- push when your hand has a poker value less than a straight but is greater than the dealer's hand; or
- push when your hand has a poker value equal to that of the dealers hand.

In order for the Blind wager to win, your hand must be of a higher ranking than the dealer's hand and be at least a straight. Winning Blind wagers shall be paid at the below odds:

Hand	Odds
Royal Flush	500 to 1
Straight Flush	50 to 1
Quads	10 to 1
Full House	3 to 1
Flush	3 to 2
Straight	1 to 1

Trips Wager

The Trips optional wager is based solely on the best 5-card combination that you can make from your two hole cards and the five community cards dealt.

Regardless of whether the dealer's hand qualifies, Trips wagers shall:

- win when your hand has a poker value of three of a kind (Trips) or higher; or
- lose when your hand has a poker value less than three of a kind (Trips).

Winning Trips wagers shall be paid at the below odds:

Hand	Odds
Royal Flush	50 to 1
Straight Flush	40 to 1
Quads	30 to 1
Full House	8 to 1
Flush	7 to 1
Straight	4 to 1
Trips	3 to 1

Play Wager

Regardless of whether the dealer's hand qualifies, Play wagers shall:

- win when your hand has a higher poker value than the dealers hand; or
- lose when your hand has a lower poker value than the dealers hand; or
- push when your hand has an equal poker value to that of the dealer.

Winning Play wagers will be paid at odds of 1 to 1.

Progressive Jackpot & Payouts

Ultimate Texas Hold'em also has a jackpot bet which can be placed by players.

Before each game and prior to the dealing of any cards you may participate in the displayed jackpot prize. To do this, place your jackpot wager onto the jackpot sensor adjacent to the regular betting boxes. You are then eligible for a jackpot prize, in addition to the regular payment made to a winning bet. You receive a jackpot payout on a qualifying hand regardless of whether the dealer opens or not.

The qualifying hand for a jackpot in Ultimate Texas Hold'em shall comprise the two cards dealt to you in a round of play plus the three cards that make up the flop.

The following hands shall qualify for a progressive jackpot payout:

Royal Flush - \$50,000 or 100% of the displayed jackpot amount, whichever is the greater.

Straight Flush - \$5,000 or 10% of the displayed jackpot amount, whichever is the greater.

The following hands shall qualify for a fixed jackpot payout:

Four of a kind - \$500.

Full House – \$150.

Flush – \$100.

Bonus Jackpot

When a Bonus Jackpot is offered, it shall be paid if you had a valid jackpot wager at the table during a round of play where a Royal Flush or Straight Flush is won.

You are not eligible for a bonus jackpot in a round of play where you are the winner of the Royal Flush or Straight Flush.

Bonus jackpots shall be paid at the following amounts:

Royal Flush - \$1000 per player with a valid jackpot wager.

Straight Flush - \$500 per player with a valid jackpot wager.

See table games staff for further information on how to play.
