# SIC BO

THE FOLLOWING IS A SUMMARY OF THE GAME RULES

Sic Bo is an ancient Chinese game played with three dice. The object of the game is to predict which numbers will appear on the dice once they are shaken. Bets range from a specific triple with payout odds of 180 to 1 to betting on the value of one of the dice with payout odds of 1 to 1.

## HOW TO PLAY

To make a bet on Sic Bo, place your chips on the appropriate area of the table. Neither verbal nor cash bets will be accepted. You are responsible for the positioning of your own bets regardless of any assistance from the dealer.

The dealer covers the dome and tumbles the dice. The dealer then announces, "Place your bets". Once the bets are placed, the dealer announces, "No more bets" and lifts the dome cover to reveal the winning combination. The numeric value of each dice is then entered into a keypad and all winning combinations are lit up on the Sic Bo layout.

The dealer then removes losing bets from the table and pays winning bets.

## SUPER STREAK

Super Streak is a wager that provides incremental payouts for a winning number Streak of either Small or Big, or Odd or Even results.

By placing a Super Streak wager you are effectively wagering that at least the next four consecutive results (Odd/Even, Big/Small) will be the same as the result prior to placing your wager. When the fourth consecutive result is achieved your wager remains in play until the streak is completed and then you win. Each consecutive result increases the payout you will receive up to a maximum of 12 results.

If a result is a triple the Super Streak wager shall neither win, lose or progress. No new wagers may be placed while a streak is in progress.
